

Shubham Bedge

Data Analyst | MIS & Reporting | SQL | Power BI | Advanced Excel | Python

Pune, India | +91 7741925295 | shubham821bedge@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Open to Relocate

PROFESSIONAL SUMMARY

Data Analyst with 4+ years of experience in MIS reporting, CRM analytics, sales reporting, and business performance analysis across EdTech and business operations. Hands-on with SQL (CTEs, Window Functions), Power BI (DAX), Advanced Excel, Power Query, and Python (Pandas, NumPy) for data cleaning, data validation, KPI reporting, dashboard development, and funnel analysis. Experienced in automating recurring reports, identifying performance trends, and communicating insights to management and business stakeholders.

KEY IMPACT

- Improved lead follow-up efficiency by **15%** by analyzing funnel drop-offs and sales performance
- Reduced manual MIS reporting effort by **30%** through Power Query and Advanced Excel automation
- Contributed to **INR 62 Lakh+** revenue impact through lead-source segmentation and performance analysis
- Tracked and analyzed **500+** monthly leads in LeadSquared CRM; found **68%** of churned users had missed onboarding sessions

CORE SKILLS

Data Analysis: Data Cleaning, Data Validation, Data Transformation, KPI Analysis, Trend Analysis, Funnel Analysis, Exploratory Analysis, Reporting Automation

SQL: MySQL, PostgreSQL, Joins, CTEs, Subqueries, Window Functions, ROW_NUMBER, RANK, LAG, LEAD, Aggregations, CASE Statements, Data Extraction

Power BI: Data Modeling, DAX, KPI Dashboards, Drill-Through Reports, Interactive Dashboards, Data Visualization, Business Reporting

Excel: Advanced Excel, Pivot Tables, Power Query, VLOOKUP, XLOOKUP, SUMIFS, COUNTIFS, IF, Conditional Formatting, Data Validation, Reporting Automation

Python: Pandas, NumPy, Data Cleaning, Data Transformation, Exploratory Analysis

Business Analytics: CRM Analytics, Sales Analytics, MIS Reporting, Lead Funnel Analysis, Revenue Analysis, Conversion Analysis, Operational Reporting, Stakeholder Reporting

Tools: LeadSquared CRM, Git, GitHub, AWS S3/RDS/Glue (Working Knowledge)

PROFESSIONAL EXPERIENCE

MIS Executive | OnDirect Marketing Services (XDBS), Pune, India

May 2026 - Aug 2026

- Developed and maintained daily MIS reports covering campaign performance, lead pipeline metrics, and operational KPIs for management decision-making.
- Consolidated, cleaned, and validated data from multiple sources using Advanced Excel to improve reporting consistency and data accuracy.
- Performed data quality checks to identify missing, inconsistent, and duplicate records before reporting.
- Prepared recurring and ad hoc management reports to support operational monitoring and business decisions.

Data & Reporting Associate | TechVision Skills Academy LLP, Pune, India

Nov 2024 - Apr 2026

- Prepared and maintained daily and weekly MIS reports covering admissions, collections, account status, and operational performance.
- Analyzed enrollment, collections, revenue, and account-level data to identify trends, discrepancies, and reporting issues.
- Managed and validated student-level and account-level datasets to maintain data accuracy and reporting consistency.
- Built Excel-based reports and dashboards to track enrollment, revenue, collections, and account performance.
- Performed account reconciliation and investigated data mismatches to maintain accurate operational records.
- Prepared ad hoc analytical reports for management and business decision-making.
- Communicated daily performance updates and reporting insights to senior management.

Associate - CRM Reporting & MIS Analysis | PhysicsWallah, Pune, India

May 2024 - Oct 2024

- Analyzed high-volume, multi-source CRM and sales data across weekly lead pipelines to identify funnel inefficiencies and follow-up opportunities.
- Used SQL, CTEs, ROW_NUMBER, and LAG to perform stage-wise funnel analysis and identify lead movement and drop-off patterns.
- Conducted lead-source and cohort analysis to identify high-performing sources and support follow-up prioritization, contributing to a **15%** improvement in follow-up efficiency.
- Prepared KPI analysis and communicated funnel trends and data-driven recommendations to sales leadership.

Reporting Analyst | Bansal Classes Pvt. Ltd., Pune, India

Nov 2022 - Apr 2024

- Developed interactive Power BI dashboards using DAX and data modeling to monitor admissions, revenue, conversion rates, and branch-level KPIs.
- Automated recurring MIS reporting using Power Query and Advanced Excel, reducing manual reporting effort by **30%**.
- Standardized KPI reporting through structured data preparation, validation, and consistent reporting formats.
- Performed trend and seasonality analysis on enrollment data to support admission forecasting and business planning.
- Delivered monthly performance reports and analytical insights to senior management.
- Recognized as Employee of the Month for reporting and operational excellence.

- Analyzed CRM, sales, and lead funnel data using SQL and Excel to identify conversion bottlenecks and lead-source performance.
- Tracked and analyzed **500+** monthly leads in LeadSquared CRM across end-to-end funnel stages.
- Performed lead-source segmentation and performance analysis that contributed to **INR 62 Lakh+** revenue impact through improved lead targeting and prioritization.
- Built structured KPI reports to monitor sales performance, lead movement, conversion, and data quality.
- Performed data validation and cleaning to improve CRM reporting accuracy and management visibility.

PROJECTS

Enterprise Sales & Supply Chain Analytics Dashboard (SQL | Python | Pandas | NumPy | Power BI)

[View Project](#)

- Cleaned and transformed sales, order, and inventory datasets using SQL and Python for analysis.
- Built an interactive Power BI dashboard covering revenue, inventory turnover, order fulfillment, and regional performance KPIs.
- Used drill-through analysis to investigate regional performance and inventory-demand mismatches.
- Developed data-driven inventory and reorder recommendations based on sales and inventory patterns.

Customer Churn Analysis (SQL | Python | Excel | Power BI)

[View Project](#)

- Analyzed customer transaction and engagement data using SQL and Python to calculate churn and identify behavioral patterns.
- Performed customer segmentation and churn analysis to identify high-risk customer groups.
- Built a Power BI dashboard covering churn KPIs, customer segments, and behavioral trends.
- Found that **68%** of churned users had missed their initial onboarding sessions, indicating a potential relationship between onboarding engagement and churn.

EdTech Admission Funnel Analysis (SQL | Excel | Power BI | DAX)

[View Project](#)

- Built a drill-through Power BI dashboard to analyze city-wise conversion, counselor performance, admissions, and month-over-month enrollment trends.
- Applied funnel-stage analysis to identify lead drop-off points and evaluate conversion performance.
- Created KPI views for lead volume, conversion rate, stage movement, and enrollment performance.
- Applied CRM and sales analytics concepts to analyze the complete admissions funnel.
